Third-Party  
Breach Alerts

Since 80% of small and medium businesses don't have cyber insurance, we help you protect your customer and your own business from cyber risks. And there is no underwriting (no forms) required and \$0 deductible. You can subscribe and cover your customers in seconds. Below are some of the insurance coverages we include:

Ransomware

Social  
Engineering

Data Breach

HIPAA  
PCI  
GDPR

Regulatory  
Compliance

Response and recovery services can be difficult, expensive, and complex, so SupportMax has built a bundled offering of monitoring, breach response services, and cyber insurance to help recuperate costs. For example, our Breach Hotline is staffed by attorneys who are experts in breach response and help reduce customer liability and regulatory compliance.

SupportMax further helps customers avoid account takeover with our Dark Web monitoring services. With billions of leak credentials uncovered every year, SupportMax helps customers know when to reset their passwords to avoid a future breach from their leaked credentials.

**Create more strategic customer relationships by bundling \$250K Cyber Insurance + Breach Response Services + Dark Web Monitoring for a low monthly price.**
